LS580 HSS drill bits for door handle holes

Features - benefits

- tips and bit made from high speed steel
- right-handed or left-handed drill bits with external thread
- offer included drill bits from HSSE and/or with pilot
- bits can be coated what increases the tool life time in a considerable way

Application

- drilling of holes for handles in PVC and plastic profiles
- drilling in profiles with or without steel reinforcement
- drills designed for machining centers
