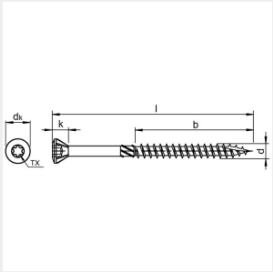
EZ9242 GLOTECH - Decking screws for hardwood with a cutting tip and TORX drive - Item No. 9242

New



Features - benefits

GLOTECH decking screw for hardwood with a cutting tip and TORX drive is made from steel grade 1.4006 or A4 (acid-resistant steel)
It is characterised by high strength and corrosion resistance
Screws with different technical specifications can be manufactured to order

Application

hardwood screw with a cutting tip and a TORX drive for joining timber on decking
used where a permanent joint is required, whilst concealing the screw head
TORX-socket screw, where force is transmitted across the large surface area of the shank?s sides
used, amongst others, by manufacturers and fitters of garden products, in the construction industry, in the processing of garden timber, etc.
also used in sectors utilising wood-based products
