CL550
ZSD

Cutters sets for wood walls

Features - benefits

- cutters with soldered HSS tips (high speed steel of high quality)
- wide range of sizes (diameter/blade width) enables to choose proper tool depending on work and machine type
- especially recommended for processing of soft and medium hard green wood
- offer includes cutters made to order according to technical drawing or model piece or customer?s profile
- wide range of after-sales services: sharpening, bore adjustment and repair

Application

- longitudinal milling of panelling board
- used for processing of wood i.e.: pine, spruce, fir, birch
- range of processed material thickness given in the table below - adjustment with spacers
- used mainly in sawmill industry and other wood production factories
- cutters used on multi-head planers and bottom spindle milling machines with mechanical feed

INFO
We also manufacture mills with different size and teeth number, individually quoted cutters can be made with bore diameter: 25, 30, 35, 40, 50mm

Please mention in the order:
set marking such as: ZSD.01
outer diameter such as: D=160mm
hole diameter such as: d=40mm
blade material: HSS
