CL560
ZIB

Cutters for logs imitation

Features - benefits

- cutters with soldered HSS tips (high speed steel of high quality)
- wide range of sizes (diameter/blade width) enables to choose proper tool depending on work and machine type
- adjusted to work with cutters CL530 ? for flooring panels
- especially recommended for processing of soft and medium hard green wood
- offer includes cutters made to order according to technical drawing or model piece or customer?s profile
- wide range of after-sales services: sharpening, bore adjustment and repair

Application

- longitudinal milling of panelling board with simultaneous rounding of processed element
- used for processing of wood i.e.: pine, spruce, fir, birch
- used mainly in sawmill industry and other wood production factories
- cutters used on multi-head planers, mainly on horizontal spindles with mechanical feed and bottom spindle milling machines
