

PS133

Saw blades MULTIX PRO Plus (6n) for raw wood ripping on multi rip saws with high speed

Features - benefits

- » professional MULTIX PRO Plus saw blades feature disc ensuring good rigidity in difficult operating conditions, typical for high-performance multi rip saws
- » special PLUS teeth allow high cutting parameters
- » rakers in the saw disc allow fast removal of chip
- » special notch shape allows larger feedrates
- » new sintered carbide with very high impact strength allows an efficient operation in summer and winter
- » new heat treatment technology has significantly improved the saw rigidity during operation at high loads

Application

- » dedicated to dry wood, soft and hard raw wood ripping on single or twin shaft multi rip saws
- » saw blades with PLUS type teeth are recommended to soft fresh wood ripping
- » especially for multi rip saws which have less requirements regarding condition of wood to be processed and chip removal
- » 4 driving keyways allow to properly put the blade on the shaft
