

PS195

Saw blades MULTIX PRO Slowrun for raw wood ripping for multi rip saws

Features - benefits

- » MULTIX PRO Slowrun series are equipped with the tooth between?
- » the tooth between? protects the space between HM tips and is a kind of ejector
- » optimal working conditions with low parameters
- » driving keyways provide chip removal and also a very good cooling of the saw which ensures long and stable work?application of the new type of high impact strength carbide tip allows to efficiently exploit saw blades, both during summer and winter

Application

- » dedicated to raw wood ripping on multi rip saws with low parameters conditions
- » feed not faster than 10m/min
- » especially recommended to soft raw wood ripping
- » one of conditions for proper work is appropriate chip removal
- » 4 driving keyways allow to properly put the blade on the shaft
