

PS190

Saw blades MULTIX PRO Plus (without wiper slots) for fibre raw wood ripping

Features - benefits

- » MULTIX PRO Plus series without wiper slots have the same construction as MULTIX PRO Plus series
- » driving keyways provide chip removal and also a very good cooling of the saw which ensures long and stable work
- » saw blades with wider HM tips
- » application of the new type of high impact strength carbide tip allows to efficiently exploit saw blades, both during summer and winter
- » 4 driving keyways allow to properly put the blade on the shaft with a better weight distribution throughout the cutting unit

Application

- » dedicated to soft and hard raw wood ripping on single or twin shaft multi rip saws with medium processing parameters
- » saw blades with PLUS type teeth are recommended to soft fresh wood ripping
- » recommended to woodworking of fibre wood (poplar, aspen, etc.)
- » also used on edging machines
- » feed should not exceed 10 m/min
- » good chip removal is necessary for proper work
