## HM-tipped saw blades for firewood cutting on pendulum saws

### Features - benefits

- » saw blade tooth equipped in chip thickness limiter
- » tooth shape prevents saw blade from overloading during work
- » additionally saws equipped in silencing and anti-vibration slots
- » slots/grooves compensate temperature impact on disc tension fluctuation

### Application

- » saws designed for firewood cutting
- » used on pendulum-cross-cutting saws
- » used in households and trade companies selling firewood
