

LS550

HM cylinder boring bits

Features - benefits

- » tips from the highest quality sintered carbide ? longer tool life time
- » shank/bit made from high-alloy tool steel with high impact strength and cracking resistance
- » cylindrical shank with flattening for easier installation in the holder
- » offer includes drill bits with total length of 90mm, 105mm, 110mm and 120mm

Application

- » drilling of blind holes in wood window profiles and doors eg. for hinges, handles
- » ideal solution for drilling in wood and wood-based materials
- » drills used on multi-spindle drilling machines and CNC machining centers
