

PS312

Saw blades LL CUT VH line GA5 / GA10 for cutting wood derived materials

Features - benefits

- » SUPER HARD carbide tips (NANOGRAIN) with hardness of 2.160 HV10 ensure longer life time - higher number of running meter of board cut till sharpening
- » series with NEW teeth geometry GA 5 (TR-F triple-chip + flat) improves cutting process
- » high smoothness of HM-tips guarantees longer tool life till sharpening - sharpening process performed on CNC sharpening machines with specially chosen grinding wheel and sharpening parameters
- » precisely executed saw disc with new silencing slots limits noise level and ensures tools longevity - new stable and silenced saw disc
- » designed compensation slots increase warp resistance due to high temperature and load
- » dynamically balanced disc eliminates vibrations during cutting - stable cutting process and higher quality of cut surface

Application

- » new series of saw blades LL CUT VH is dedicated to cutting of wood-based materials such as: chipboard, laminate, MDF, HDF, LDF, MFP with low contamination level
- » perfect edges after cutting - saw blades for most demanding users
- » series with new carbide tip geometry is characterized by good cutting performance
- » especially recommended while cutting of different types / sorts of material cut on the sawing machine
- » cutting on vertical and horizontal sizing machines - single boards or sets up to thickness: 3x18mm=54mm
- » saws used with scoring saws
