

PS015

## Saw blades for raw wood ripping with feed limiter

## Features - benefits

- » saw blades have chip thickness limiter
- » specially selected tooth form prevents saw blade from overloading while working
- » additionally, saw blades are equipped with grooves compensating the influence of the working temperature on the disc tension

## Application

- » saws designed for hard and soft wood cutting
- » saws used also for dry and wet wood cutting
- » recommended for ripping (cutting wood along the grain)
- » used on table cut-off and sizing machines with manual feed
