

PO150

GRES-TECH series diamond blades

Features - benefits

- » saw blades with continuous diamond rim
- » diamond rim with high diamond grain concentration and proper ground mass hardness
- » they guarantee tool's longevity, especially while gres cutting
- » diamond rim guarantees high quality of cut edges and surfaces
- » disc cooling (wet cutting) increases the tool's life time

Application

- » saw blades are excellent for precise cutting of hard building materials like stoneware
- » dedicated also for cutting of granite, marble and different types of ceramic tiles
- » used in angle grinders and other high speed building machines
- » for dry and wet cutting (wet cutting on specially adjusted table machines)
