

PS710

Saw blades with sintered carbide tips for meat cutting

New index

Features - benefits

- » saw bodies made of food contact stainless steel with anticorrosive properties
- » saw blades with GS tooth geometry - alternating teeth
- » discs certified in food safety establishment by NIZP PZH - PB
- » possibility to produce discs of other dimensions and regeneration of discs by sharpening or partial regeneration (exchange of HM tips and sharpening)

Application

- » cutting swine, in particular hogs and sows, quartering swine halves, separating patches from hindquarters
- » halving of swine in order to rationally dissect the dressed animal
- » cutting of large-sized swine, beef, veal, mutton, goat, etc., including the process of halving and quartering dressed animals
- » cutting up of venison
