Band saws ECO for cutting frozen and not frozen meat with or without bones

New

Features - benefits

- » ECO series band saw blades are made of food grade structural steel with anticorrosive properties
- » bandsaws to HORS specification - hardened, sharpened, tempered, bifurcated, ground
- » produced with blade grinding method which prolongs blade life and eliminates microcracks
- » healing process of band saw blades is performed on highly specialized welding machines which ensures high quality and repeatability of welded seam
- » possibility to produce band saw blades with different dimensions

Application

- » ECO series band saws for cutting pigs, hogs and sows, quartering pig halves, separating patches from hind quarters
- » halving pork for rational cutting of dressed game
- » cutting larger pigs, beef, veal, mutton, goat, etc., in including the process of halving and quartering game
- » cutting game, halving and quartering game
- » saws also used for cutting fish
