

LV041

Z4 solid carbide finishing cutters with chip breaker - for machining wood and wood-based materials

New

Features - benefits

- » solid carbide end mills - body and cutting edge made from cemented carbide
- » end mills available in diameters of 10-25 mm with various overall and effective lengths
- » excellent surface finish, the cutting edge can be coated with a PVD coating, which significantly increases the tool's service life
- » available versions: Right-Positive / Right-Negative / Left-Positive

Application

- » 4 cutting edges (2 smooth faces and 2 faces with chip breaker), positive geometry, upward chip ejection, clockwise rotation
- » for cutting and milling in solid wood and wood-based materials
- » used on high-performance CNC machining centres with mechanical feed, small milling plotters and top-spindle milling machines
- » operating parameters in WOOD: 18,000-24,000 RPM, feed rate 2-16 m/min
- » operating parameters in FURNITURE BOARD: 18,000-24,000 RPM, feed rate 2-16 m/min
