

EZ4027

GLOTECH - Set screws with hexagonal socket and tapered end - ISO 4027

New

Features - benefits

GLOTECH clamping/set screw with a hexagonal socket and a tapered end, made from A2 (stainless steel) or A4 (acid-resistant steel)
clamping screws with other technical specifications can be manufactured to order

Application

A clamping screw with a conical end is used for fastening and clamping these screws are used, amongst others, in the automotive, construction and furniture industries, as well as in many other sectors
its purpose is to adjust the clamping force and apply pressure to a specific point
