

EZ4029

GLOTECH - Clamping screws with a hexagonal socket and countersunk head - ISO 4029

New

Features - benefits

GLOTECH clamping/set screw with a hexagonal socket and countersunk head is made from A2 (stainless steel) or A4 (acid-resistant steel) clamping screws with other technical specifications can be manufactured to order

Application

A clamping screw with a countersunk head is used for fastening and clamping; these screws are used, amongst other things, in the automotive, construction and furniture industries, as well as in many other sectors; their purpose is to regulate the clamping force and apply pressure to a specific point
