GLOTECH - Self-tapping screws with conical-flat TORX head - DIN 7504 O TX

New

Features - benefits

GLOTECH self-tapping screw with a TORX flat-conical head, manufactured from A2 (stainless steel) or A4 (acid-resistant steel)
The screw is characterised by high strength and corrosion resistance
Self-tapping screws with other technical specifications can be manufactured to order

Application

ideal for joining light/soft metals, e.g. aluminium (not steel!!!)
A screw with a TORX socket, where the force is transmitted across the large surface area of the shank's sides
Used where a permanent joint is required, whilst ensuring the screw head is fully countersunk
Also used for joining timber (particularly hardwood) and various wood-based materials
Used in house construction (roofs, balustrades, aluminium structures, etc.) and in watercraft (ships, yachts, etc.)
Suitable for assembling timber structures, fa?ade cladding, decking, fences, etc.
A screw used across many industrial sectors
