

EZ9242

GLOTECH - Decking screws for hardwood with a cutting tip and TORX drive - Item No. 9242

New

Features - benefits

GLOTECH decking screw for hardwood with a cutting tip and TORX drive is made from steel grade 1.4006 or A4 (acid-resistant steel). It is characterised by high strength and corrosion resistance. Screws with different technical specifications can be manufactured to order.

Application

hardwood screw with a cutting tip and a TORX drive for joining timber on decking used where a permanent joint is required, whilst concealing the screw head. TORX-socket screw, where force is transmitted across the large surface area of the shank's sides. Used, amongst others, by manufacturers and fitters of garden products, in the construction industry, in the processing of garden timber, etc. also used in sectors utilising wood-based products.
