

EZ0471 A

GLOTECH - External retaining rings - DIN 471 A

New

Features - benefits

The GLOTECH outer retaining ring is made from stainless steel grade 1.4122 or 1.4310
retaining rings with other technical specifications can be manufactured to order

Application

prevention of axial displacement of machine components (bearings, pulleys, gears, etc.)
in the automotive industry to prevent piston pins and drive shaft pins from slipping out
in the engineering industry - as protective components for bearings, bushings, discs, gears and other parts mounted on shafts, axles or in bores
in household goods - as a locking element
