GO Cleaner - cleaning fluid for tools and machines

Bestseller

Features - benefits

- » GO Cleaner, as one of the few on the market, is not subject to the requirements of ADR, what significantly reduces transport costs and the substance is not combustible
- » GO Cleaner is safe for human use, does not contain potassium hydroxide which is strongly corrosive substance (this hazardous substance is a major component of articles offered by competitors)
- » cleaner is produced on the basis of alkaline compounds containing surfactants and is a highly moisturizing, penetrating and removing dirt
- » two-task cleaner: to separate dirt from the surface being cleaned and to protect the cleaned surface against external factors
- » safe neutralization with water, GO Cleaner is safe for work clothes - does not affect the fiber structure
- » safe for cleaned surface, i.e. plastic, rubber
- » GO Cleaner was developed by a Polish chemists and is produced in one of Polish chemical plant

Application

- » for cleaning of circular saw blades, cutters, cutterheads, drill bits, gardening tools i.e. grass trimmers and mowers, chainsaws ? GO Cleaner removes resin and all oil-based dirt
- » especially recommended for tools that cut raw and wet wood (with resin)
- » perfect cleaning of dirty machine parts
- » GO Cleaner should be sprayed directly on the cleaned surface and left for 5-15 minutes to dissolve any dirt. After that time please wipe the surface with a cloth to remove the dirt
- » the best results are achieved by immersion: immerse cleaned object in the liquid GO Cleaner for 15 - 30 minutes, then pull it out and wipe with a cloth ? concerns only tools like saw blades, cutters, cutterheads, drill bits
- » in case of light soiling you may dilute GO Cleaner with water in proportion 1:1, max. 1:2, but its time of reaction decreases so the manufacturer recommends using it in an undiluted form
- » in case of heavy dirt on large surface penetration may take longer than the times given, please repeat cleaning process once again
- » it is not recommended to use GO Cleaner on hot elements
