

EZ1023

GLOTECH - Large conical rivet nuts - Item No. 1023

New

Features - benefits

The GLOTECH large-cone rivet nut with flange is manufactured from A2 (stainless steel) or A4 (acid-resistant steel) rivet nuts with other technical specifications can be produced to order (e.g. galvanised, etc.)

Application

used where threading is not feasible due to cost-effectiveness or difficult access for joining sheet metal or thin-walled profiles, as well as for joining plastics used in many fields of application, e.g. in construction, the automotive industry, window joinery, for joining ventilation components, etc. also used for general domestic purposes, e.g. during DIY projects
