CL230 Glue joint cutters - in sets

Features - benefits

- adjusted to work as a set ? from a few to a few dozen simultaneously ? dependent on material width
- cutters with soldered HM tips
- we offer reduction sleeves (twisted) for cutters
- joining is characterized by very high strength and rigidity

Application

- execution of multi-link joints on faces of joined elements with a V-pattern contact on a wide plane
- milling of multi-link joints across the grain - joints used in wooden constructions
- processing of hard raw wood and wood-based materials
- cutters used on bottom spindle milling machines, single- and double-ended pattern tenoning machines with mechanical feed
