# CL240 Adjustable glue joint cutters

## Features - benefits

- processing of materials with different width thanks to spacers between cutters
- cutters with soldered HM tips
- joining is characterized by very high strength and rigidity

## Application

- execution of multi-link joints on faces of joined elements with a line contact on narrow planes with adjustable joint width
- milling of multi-link joints across the grain - joints used in wooden constructions
- processing of hard raw wood amd wood-based materials
- cutters used on bottom spindle milling machines, single- and double-ended pattern tenoning machines with mechanical feed
