CL072 Straight planing cutters - with soldered HSS knives

Features - benefits

- cutters with soldered HSS tips (high speed steel of high quality)
- wide range of sizes (diameter/blade width) enables to choose proper tool depending on work and machine type
- especially recommended for processing of soft and medium hard green wood
- offer includes cutters made to order according to technical drawing or model piece or customer?s profile
- wide range of after-sales services: sharpening, bore adjustment and repair

Application

- milling of grooves with rectangular cross-section in raw wood
- used for processing of wood i.e.: pine, spruce, fir, larch, poplar, birch
- used mainly in sawmill industry and in production of wood-crafted elements
- cutters used on bottom spindle milling machines, single- and double-ended tenoning machines, multi-head planers with mechanical feed
